Jamaica

Current role: Content & Marketing Executive | May 2026 - Present

Previous roles: Content & Inbound Marketing Executive

Customer Success Specialist; Digital Fulfilment Specialist

- Write, edit and publish SEO-informed content across Yello's digital properties; align editorial calendars with campaigns and product launches.
- Coordinate writers, designers and production workflows for short-form video, podcasts, infographics and social content. Build and schedule segmented email campaigns.
- Developed an article-to-social workflow linking local discovery themes with creative concepts, calls to action and paid support.
- Managed FindYello's multi-market social presence, publishing content and supporting community engagement across Facebook and Instagram.
- Created and led Yello Finds, a local discovery content series built around human-centred storytelling.
- Led Brand Camp 2025 campaign strategy and rollout, working with designers on visual direction, promotional videos and AI-assisted comic-style storytelling.
- Led Refill Hope from concept to launch, coordinating campaign content and rollout in support of a community water-distribution initiative.

PROFESSIONAL EXPERIENCE CONTINUED

Yello Media Group

- Managed high-touch client relationships across digital products and services, aligning stakeholders on goals, deliverables, performance and next steps.
- Coordinated onboarding, implementation and optimisation across websites, Google Ads, social media and reporting for Yello clients, including GKONE.
- Partnered with sales teams on product recommendations and marketing dossiers for client presentations.
- Supported app conversion tracking and clearer campaign reporting dashboards for Yello client accounts.

SELECTED YELLO PROJECTS

Marketing intelligence and reporting

Created the Yello Marketing Intelligence Hub and Marketing Contribution Dashboard using AI-assisted development. Organised reporting snapshots, content strategy and active workstreams into navigable stakeholder views.

Sales enablement and creative development

Designed the FindYello Sales Academy prototype, covering 11 products, 10 customer scenarios and 20 practice questions. Shaped its learning structure and user experience, alongside experiments in reusable AI-assisted visual storytelling.
